Special Notes:

See back for color matching info. We accept TIF (no LWZ), JPG, and PSD files. Our working color space is sRGB; please do not embed any color profiles. Flatten your images. No alpha channels. Convert grayscale to RGB. If you need your image printed to exact pixel dimensions, the image must be at 300dpi. If not 300dpi, you must place it on a standard size canvas. We will set your image for you for a fee of $5.00 per image.
